CEN Award Salutes Disability Backup

Disability Backup has been presented with an award by the Community Empowerment Network for a Network which has had 'most success in overcoming difficulties.'

After its former host organisation closed in March, DBU members refused to accept defeat and continued to run the network themselves. DBU team members said:

"By taking up the cudgels ourselves, we've shown that a user-led network is an effective way for the voices of disabled people to get heard in Hackney."

A new host organisation, Age Concern Hackney, has now been appointed. Project worker Carol Davis said:

"We are delighted to be working with Disability Backup and supporting its members' efforts to achieve equality for disabled people in Hackney."
